*Software Engineer with over 5 years of experience specializing in .NET and enterprise application development. Strong background in backend architecture design, process automation, and technical leadership of internal platforms with a SaaS-oriented approach.*

## PROFESSIONAL EXPERIENCE

### De La Paz Costemalle SA de CV

Tech Lead / Senior Backend Engineer (.NET)

**Mexico City, Mexico**

*June 2022 – September 2025*

- Led the design and development of **SELIA 360**, an internal platform for fiscal and accounting audits.
- Defined and implemented the system architecture using **.NET, C#, Blazor Server, and MongoDB**.
- Coordinated a multidisciplinary development team using **Scrum and Kanban**, including participation in technical recruitment.
- Implemented automated workflows that reduced audit processing times by **40%**
- Established the technical foundations for a future **SaaS product** aimed at commercial distribution.

### CERTIFICACIÓN CFDI SAPI DE CV

Full Stack Developer

**México, México**

*Jan 2020 – Feb 2022*

- Contributed to the development of modules for **MyBigData Business**, including expense management, intelligent document analysis, and SAT data download automation.
- Helped attract new clients through the added value of implemented features.
- Reduced processing costs through the internal use of **AI-driven document processing**.
- Provided technical support by addressing platform issues and assisting users with problem resolution.
